Youth Enrichment Learning Center (Y.E.L.C) is a year-round tutorial program to enhance children's intellectual ability that results in academic excellence. Y.E.L.C. provides homework assistance, group and individual tutoring, emphasizing math, English Language Arts (E.L.A.), and more.

Abrie'ana Johnson six years old learned and excelled above her academic expectations of first grade. She is now in fourth grade and taking advanced classes on the fifth-grade level. Abrie'ana continues her goal with the help of her Y.E.L.C. teachers and math and E.L.A. tutors. "I like to learn in a fun and easy way, and Y.E.L.C. helps me to improve my work. That is how I am working towards my goal of remaining the top student in my class."

Taylor Kimble attended the Summer Camp Academic Tutorial Program, and she continued into the After School Tutorial Program 2023. Taylor expressed, "We had lots of fun, but we also learned. The teachers taught us math and E.L.A. preparing us for our promoted grade. It was difficult at times, but we had teachers who tutored us, which was a great help. The After School Program is fun also, but you must do work before anything. My favorite things to learn are math and getting on electronics to help me learn. YELC feed you and give you seconds, and the kids are nice here."
